A newsletter following the South Carolina Governor's Cup Billfishing Series

April 2021  
Vol. 26 No. 3

## Supporting the conservation of billfish, ocean resources, billfish tournaments and coastal tourism

Since 1989, the Cup has promoted the catch and release of billfish, resulting in a shift from a 90% landing rate to a 99% release rate in the billfishing industry for the Palmetto State!

### Series Reflections

As we slowly emerge from our year long period of isolation, I wanted to say I am looking forward to things getting more back to normal. While we have had some changes in ownership and issues related to postponed construction interfaced with expiring OCRM permits interfering with part of our Series schedule, I am happy to report we have three signed contracts in hand with Georgetown, CBC at Charleston Harbor Resort and Marina, and Edisto Marina and we will have a Billfish Series this year! The last time we had just 3 tournaments was in 2009 and, reading back over the annual report from that year, indicated that it was a great success with most boats participating in all three tournaments instead of having to pick and choose, as sometimes that happens when the number is greater. It was also a very good fishing year with record numbers of billfish released. It is my hope that this year will yield similar results with participants more than ready to shake off the last year of uncertainty and get back to

fishing and the camaraderie that the Series offers. We look forward to seeing familiar and new faces in less than one month.

At present, the Memorial Reef fundraising is moving along quite well with over \$125,000 in donations received to date, for the next project. While negotiations on materials and deployment are still underway, it is my hope that we will have some certainty and a concrete timeline in place before the tournament season starts. On that note, I would like draw your attention to a recent refereed journal article (the gold standard for science) recently published in the Wiley Journal, Fish and Fisheries by Paxton et al., entitled, "Four decades of reef observations illuminate deep-water grouper hotspots," which specifically mentions grouper density recorded by NOAA ship Pisces ROV dives at the first two structures placed in the Charleston Deep Reef in 2014 during visits to the site in 2016, 2017 and 2018. These were the only two intentionally placed structures that were examined among a number of other natural and ship wreck reefs explored. It is great to see that your work and contributions are being noticed by fisheries scientists as important to the overall management and survival of these rare species. For those of you who would like to delve into the article you can find it here <https://onlinelibrary.wiley.com/doi/10.1111/faf.12548> or send me an email, [JenkinsW@dnr.sc.gov](mailto:JenkinsW@dnr.sc.gov), and I will forward the article to you. In addition, during the February and March issues of Marlin magazine, there were 2 articles written by our very own Cameron Rhodes, the first highlighting the Garmany family, <https://www.marlinmag.com/story/boats/growing-up-garmany/?fbclid=IwAR0xorJh1aKX3awE4fBSvjU3dAvRMo7oKeeGM0hs1u4cP7TDrUQorT6Eu8>, and the second, featuring Captain Mike Glaesner, <https://www.marlinmag.com/story/travel/passing-the-torch-from-captain-to-mate-offshore-fishing/>.

I hate to put in so many links in this column, but I wanted to make sure you all had the opportunity to read these well written articles. This kind of coverage, in an international magazine, is invaluable and I am told there will be a third article later this year on the Memorial Reef. Finally, as I have during the last few newsletters, I want to take time to mention two additional people we lost in the past months. Again, Cameron did an outstanding job memorializing these individuals on our Facebook page, but I also wanted to share some personal story's myself. Losing someone is never easy, but when they pass at such a young age it is especially difficult for those they know and love. This is true of

both individuals who passed away but especially true of David Redd, who from all outward signs, was a fit young man of 51. David captained the El Tejano for Mr. John Hill for many years. I always enjoyed my opportunities to speak with him about their day of fishing when they returned to the docks during tournaments. He was always thorough and professional, although somewhat quiet. If it were near the end of the day with most tournament fishing interviews complete, I would take the opportunity to sit and talk to him and Mr. Hill who were both very welcoming. I regret that this last year of social distancing had not allowed us to interact in person and I will forever miss his smiling face. The second individual who passed is former Advisory Board member Mark Daniels who owned the Daymaker out of Georgetown Landing Marina. He was only 61 and passed away after a long battle with Covid 19. Mark was always a true gentleman and unselfish in our interactions over the years. One story exemplifies the type of person he was. It was 2013, there was a fundraiser for the Memorial Reef being held during the CBC at Goldbug Island. Part of the evening was a silent auction with many donated items on display for bidding. To make a long story short, Mark had the high bid for a Steve Spurrier autographed football. After he collected it, he came over to me and said "Wally, I saw your wife bidding on this ball, are you a South Carolina fan?" To which I replied, "not particularly, but she was bidding on it for her son who is a huge fan." He then said words I will never forget "I was primarily here to support the Reef project, he will probably enjoy having this football more than me, please give it to him for me". The ball, to this day, sits on my stepson's dresser and will be forever, a reminder of Mark's quiet generosity. It is my hope that as this pandemic begins to subside, Mark and David will be the last people I memorialize from the Governor's Cup family, we will all miss them both as well as the others we have all personally lost during the past year. Stay Safe!

~~ Wally Jenkins

### Why Call Us First...

- Never an overtime charge
- You know the price before we start
- Clean, professional technicians
- Work is always guaranteed
- Extended warranty programs
- Licensed and insured

### Our Services...

- Air conditioners

## **Know our Rules...SCGC 2021 Fishing Guidelines:**

1. All fish must be caught in accordance with all South Carolina and federal laws, and under IGFA Rules with the exception of passing rod to qualify to earn S.C. Governor's Cup points/awards. In addition, every individual (age 16 and above) aboard the vessel must have a valid official S.C Saltwater Recreational Fishing License in their possession. After a fish strikes, the rod may be passed to one angler one time as soon as possible. All anglers may have the rod passed one time to them. After the rod has been passed, only the angler is allowed to touch the rod/reel/mainline. Once the leader is brought within the grasp of the crew member or is wound to the rod tip, then the angler may have assistance to catch and release or boat the fish. Series points will accrue towards Series awards for these fish. Vessels may provide assistance to other vessels for boating fish. Violations of state or federal law will lead to the disqualification of all fish caught on that fishing day, and the day will be counted as an eligible fish day for the tournament.

2. Knowingly fishing on a Fish Aggregating Device (FAD - is defined by NOAA as a floating object(s) that is designed and strategically placed to attract pelagic fish) during a Series tournament is prohibited and will lead to disqualification. Burden of proof falls upon the protesting vessel, and clear and convincing evidence must be provided by the protesting vessel to the individual Tournament Rules Committee. Disqualification for fishing on a FAD shall be determined by the Tournament Rules Committee.

3. White marlin, sailfish, and spearfish are catch and release only. Tagging is optional and not required for points. The minimum size for Series points or awards consideration for landed blue marlin is 105 inches measured in a curved line along the body from the fork of the tail to the tip of the lower jaw (LJFL). Federal regulation dictates: 635.21 (a) All Atlantic HMS fishing gears. (1) An Atlantic HMS harvested from its management unit that is not retained must be released in a manner that will ensure maximum probability of survival, but without removing the fish from the water. (2) If a billfish is caught by a hook and not retained, the fish must be released by cutting the line near the hook or by using a dehooking device, in either case without removing the fish from the water.

Note: 105 inches exceeds the federally mandated minimum size limit. Should the federal size limit be increased, the minimum size for blue marlin eligible for weighing in S.C. Governor's Cup Series tournaments will be increased automatically to exceed the new minimum size by two (2) inches if required.

4. A penalty of 600 points will be assessed against a boat for each blue marlin brought to the dock not meeting the minimum South Carolina Governor's Cup Series size requirements.

5. Boats guilty of wanton waste of fish taken in a Series event will be disqualified from earning points in that event.

6. All landed fish are to be iced or refrigerated until such time as the edible tissue can be processed and the carcass disposed of. Boats landing blue marlin will have a maximum of three hours to complete this task after the fish is released by Series staff or Tournament officials.

7. Scoring for eligible blue marlin weighed-in is based solely on those points officially awarded each boat by each tournament. Boats earn one point per pound and fraction of a pound for their single heaviest blue marlin weighed in at each tournament. No points are awarded for additional blue marlin weighed in at any one tournament.

8. Only blue marlin, white marlin, sailfish, and spearfish are eligible for billfish catch and release points. Tagging is optional and not required for points. Billfish boated for any reason will not qualify for release points. Scoring for billfish caught and released in good condition is as follows:

Blue Marlin	600 points
White Marlin/Spearfish	300 points
Sailfish	200 points

9. To qualify for catch and release points, a billfish must be fought to the boat according to program guidelines. A billfish is considered caught and points will be awarded when all of the following has occurred: 1) the leader is grasped by the crew or the leader is wound to the rod tip (a leader may be no longer than 30 feet); 2) the billfish is positively identified to species through digital photography/videography (if species cannot be determined yet it is identified as a billfish, 200 points will be awarded); and 3) the fish is released in a healthy condition and the fish is no longer attached to the boat/line. Boats should attempt to remove the hook or to sever the leader as close as possible to the hook.

10. Billfish may not be brought into the boat unless it is to be brought to the dock for weighing. A penalty of 600 points will be assessed against a boat for each billfish if it is determined that the fish was boated and subsequently released.

11. Any billfish gaffed or otherwise injured in an attempt to boat the fish will not qualify for catch and release points. Additionally, if the gaff crosses the vertical plane of the boat in an attempt to land a blue marlin yet it is unsuccessful, the boat will not qualify for catch and release points.

12. For a vessel to qualify any billfish for points, every person aboard the vessel 18 years of age or older must sign an official Governor's Cup Released/Tagged and Released Billfish Affidavit or Landed Billfish Affidavit swearing that all rules and regulations were observed in reference to the described fish. Failure of any person to sign the affidavit, for any reason, disqualifies that fish. In addition, all released billfish must be clearly digitally photographed or videoed (preferable image would include a visible dor-

sal fin) at time of release by each vessel using a digital/video camera provided by the vessel. The image must include a date and time stamp that corresponds to the date and time of release recorded by the designated tournament committee boats. Photos/videos must be provided on a removable storage device and will be used to confirm species identification and release information and will be used to resolve potential conflicts or formal protests.

13. Affidavits must be completed the day the catch and release or landing occurs, except when a medical emergency involving the boat's crew prohibits completion of the form or when a mechanically disabled boat cannot return within the prescribed weigh-in period. In these instances, the forms must be completed and returned within ten (10) days of the catch and release. If applicable by the individual tournaments, boats fishing out of other marinas or ports must fax or hand-deliver the completed official Governor's Cup Released/Tagged and Released Billfish Affidavit and email digital images to tournament headquarters or Series staff (GovCup@dnr.sc.gov) prior to the close of the weighing scales on the day of catch with the exception as noted above.

14. Boats will be awarded 25 participation points for each Series tournament entered, up to a maximum of three events. A boat's points total will include participation points as indicated along with points for landed or caught and released billfish from all tournaments fished. Points will count toward aggregate point totals for Outstanding Billfish Boat and Outstanding Billfish Conservationist. Points cannot be transferred from one boat to another, except when a boat(s) makes a written request for special permission and the request is approved by the Advisory Board of Directors.

15. Boats must fish a minimum of two Series tournaments to qualify for Outstanding Billfish Boat and Outstanding Billfish Conservationist. Vessels fishing only one tournament qualify for Outstanding Billfish, Blue Water Conservation, Youth Angler, Lady Angler, and Outstanding Dolphin/Wahoo/Tuna Series awards.

16. Boat points are awarded at the time of release or landing (boated). Ties between points are broken by the time of release/landing. The date of the release/landing is based on the boat's fishing day (day 1 or 2) as opposed to the tournament fishing day (day 1-2-3).

17. Tournament awards will be presented for the heaviest tuna (eligible species include yellowfin, blackfin, bluefin, and bigeye tuna), dolphin, and wahoo caught by boats participating in the Series and for 1st, 2nd and 3rd place Youth Anglers (under sixteen years of age on April 1 of current tournament year) and Outstanding Lady Anglers (female over sixteen years of age on April 1 of current tournament year). The tournament awards for Youth and Lady Anglers will be awarded for the heaviest tuna, dolphin or wahoo if no Youth or Lady Angler has landed or caught and released a legal billfish. Billfish caught by Youth or Lady Anglers will earn regular Series points for the species.

18. A Blue Water Conservation award will be presented to the boat accumulating the most points tagging dolphin (50 points), eligible tuna (100 points) and/or wahoo (150 points). All fish must be caught on legal Series tournament fishing days and tagged using official tags supplied by the Marine Resources Division's Marine Gamefish Tagging Program. Completed tagging reports will serve as official entry forms and must be submitted to Series staff working the tournament or the weighmaster on the same day the fish was tagged. A minimum of 24 fish must be tagged in order to qualify for this award.

19. Creel limits for dolphin are 10 per angler per day with a limit of 60 per boat per day, with a minimum legal-size limit of 20 inches fork length. Creel limits for yellowfin tuna are 3 per angler per day with a minimum legal size of 27 inches curved body fork length; see current federal size and creel limits for

other tuna species. Creel limit for wahoo is 2 per person per day.

Note: Size or creel limits will automatically be changed in S.C. Governor's Cup Billfishing Series tournaments to reflect changes in federal or state laws.

20. All awards are presented to the boat. Invitations to the annual Governor's Cup Awards Reception are limited to winning boat crews and to boat owners whose boats fish two or more yearly Series events.

21. It is the intent of the S.C. Governor's Cup to encourage the release of healthy billfish, therefore the use of 130 lb. class line is allowed.

22. Series participants, at the completion of a tournament fishing day, are subject to a biological creel survey by SCDNR staff and/or an interview by SCDNR Law Enforcement.

23. A boat owner may request an official ruling from the S.C. Governor's Cup Series. The request for a ruling must be submitted in writing to a member of the Tournament Committee. The Tournament Committee shall rule on the request within seven (7) days. Any ruling of the Tournament Committee may be appealed by writing to the Advisory Board of Directors within forty-eight (48) hours, excluding weekends and holidays. The Board shall render results of an appeal, in writing, to the appellant within thirty (30) days. All decisions of the Board are final. Voting individuals representing either the Tournament Committee or the Advisory Board of Directors will recuse themselves from the decision if there is a conflict of interest. All rulings will focus solely on compliance with S.C. Governor's Cup Series rules, not individual tournament rules.
